

IPA CARE PROGRAM

SUPPORT TO “SEKOLAH KAMI” August 2012

Background

- As part of “the IPA Care for Education Programs” in 2012, the IPA has provided support to “Sekolah Kami”, a school established in 2001 for around 150 scavengers and disadvantaged children located in the Bekasi area.
- A donation of 75 million rupiahs was symbolically handed over by Pak Sammy Hamzah, IPA Vice President to Ibu Irina Amongpradja, the principal of the school during the IPA Breaking the Fast event on August 7, 2012 at the Dharmawangsa Hotel .
- The funds were intended to renovate the school facilities (new school desk and chairs) and to fix the fish ponds (as a mean to teach the children about fish farming and as the fish could be a source of nutritious food for the children).
- For the transparency and accountability of the IPA Donation, the IPA then appointed a contractor to perform the renovation.

Project Report

Works implemented by the contractor include :

- Digging/excavation works
- Wall works
- Water installation works
- Electrical installation works
- Land clearing works
- Procurement

The reparations of fish pond and procurement of new school chairs, tables and have been completed on **November 1, 2012**

A complete financial report and handover document has been submitted by the contractor to IPA.
